1. I believe the decision to sell off Edmonton's electrical generating assets should not have been made in secret without public consultations.

Yes

I am concerned that Edmontonians were not informed that the creation of Capital Power was under consideration before the deal was announced. While I certainly understand that negotiations to create Capital Power needed to be conducted confidentially, I believe that, if the Mayor and Council wanted to proceed with this deal, they should have sought a mandate to do so during an election.

2. As a representative of the Citizens of Edmonton who are the sole shareholder of EPCOR, I will not support the sell off of any other assets (electrical transmission, water, waste water) that serve the citizens of Edmonton, without full public consultations

Yes

I believe that people deserve a say in how their city is run. As a representative of the people, it is the Mayor's responsibility to ensure that he speaks for the majority of Edmontonians. Such major decisions MUST include proper public consultation.

3. I believe the next City Council should have an independent investigation of the decisions surrounding the sell off of our electrical generating assets, as provided for in the Unanimous Shareholders Agreement with EPCOR

No Response

4. As a city councillor, I will do everything in my power to explore how the City can maintain ownership and control of the electrical generating assets that serve the Citizens of Edmonton.

Yes

Unless a compelling case can be made otherwise, I believe that assets which serve our city and provide a financial benefit to Edmontonians should remain under City ownership.

1. I believe the decision to sell off Edmonton's electrical generating assets should not have been made in secret without public consultations.

Yes

The vision and intention of these assets were to be owned and operated by the city for Edmontonians. Not for private sale.

2. As a representative of the Citizens of Edmonton who are the sole shareholder of EPCOR, I will not support the sell off of any other assets (electrical transmission, water, waste water) that serve the citizens of Edmonton, without full public consultations

Yes

As a shareholder myself and as Mayor I believe the citizens must be consulted on large issues regarding city assets.

3. I believe the next City Council should have an independent investigation of the decisions surrounding the sell off of our electrical generating assets, as provided for in the Unanimous Shareholders Agreement with EPCOR

Yes

4. As a city councillor, I will do everything in my power to explore how the City can maintain ownership and control of the electrical generating assets that serve the Citizens of Edmonton.

Yes

These assets provide much needed services and income for the city.

1. I believe the decision to sell off Edmonton's electrical generating assets should not have been made in secret without public consultations.

Yes

it should have gone to a plebisite, government should be totally transparent, no secrecy anywhere.

2. As a representative of the Citizens of Edmonton who are the sole shareholder of EPCOR, I will not support the sell off of any other assets (electrical transmission, water, waste water) that serve the citizens of Edmonton, without full public consultations

Yes

There should be plebisite's on such issues with clear easy to understand questions

3. I believe the next City Council should have an independent investigation of the decisions surrounding the sell off of our electrical generating assets, as provided for in the Unanimous Shareholders Agreement with EPCOR

Yes

you do not have the same people representing the buyer and seller, it is wrong.

4. As a city councillor, I will do everything in my power to explore how the City can maintain ownership and control of the electrical generating assets that serve the Citizens of Edmonton.

Yes

on my web site u have how we should make every city owned building a generating plant of clean and green energy.
