1. I believe the decision to sell off Edmonton's electrical generating assets should not have been made in secret without public consultations.

Yes

The Municipal Government needs to be transparent. That is why I have my phone number on my signs. I am available and have nothing to hide.

2. As a representative of the Citizens of Edmonton who are the sole shareholder of EPCOR, I will not support the sell off of any other assets (electrical transmission, water, waste water) that serve the citizens of Edmonton, without full public consultations

Yes

I believe in an open and accountable government. This is from my brochure." Democracy Listening, hearing, and responding to the opinions of the citizens Being open to and honoring citizens' petitions Believe citizens deserve the right to be informed, to be heard, to challenge the decisions of city council, and to be respected."

3. I believe the next City Council should have an independent investigation of the decisions surrounding the sell off of our electrical generating assets, as provided for in the Unanimous Shareholders Agreement with EPCOR

No

Before I would support the investigation, I would want to see the documents and what it was that transpired. Should we investigate to see if it was legal and what the cost to reverse the decision is? Yes! Also I would need to see the cost of the independent investigation as sometimes the cost tend to get out of hand and I would not want to see wasteful spending.

4. As a city councillor, I will do everything in my power to explore how the City can maintain ownership and control of the electrical generating assets that serve the Citizens of Edmonton.

Yes

I believe that it is the Councilors duty to explore and be open to all options before making a decision

1. I believe the decision to sell off Edmonton's electrical generating assets should not have been made in secret without public consultations.

Yes

I voted against this because it lacked public consultation and debate

2. As a representative of the Citizens of Edmonton who are the sole shareholder of EPCOR, I will not support the sell off of any other assets (electrical transmission, water, waste water) that serve the citizens of Edmonton, without full public consultations

Yes

I strongly believe that public consultation is vital before any decision is made related to any public asset.

3. I believe the next City Council should have an independent investigation of the decisions surrounding the sell off of our electrical generating assets, as provided for in the Unanimous Shareholders Agreement with EPCOR

Yes

4. As a city councillor, I will do everything in my power to explore how the City can maintain ownership and control of the electrical generating assets that serve the Citizens of Edmonton.

Yes
