1. I believe the decision to sell off Edmonton's electrical generating assets should not have been made in secret without public consultations.

Yes

This was a major change in how we manage our assets. The discussion should not have happened entirely behind closed doors.

2. As a representative of the Citizens of Edmonton who are the sole shareholder of EPCOR, I will not support the sell off of any other assets (electrical transmission, water, waste water) that serve the citizens of Edmonton, without full public consultations

Yes

If there are benefits to selling assets, the reasons should pass the muster of public scrutiny.

3. I believe the next City Council should have an independent investigation of the decisions surrounding the sell off of our electrical generating assets, as provided for in the Unanimous Shareholders Agreement with EPCOR

No

The current council should be held accountable, but that boat has sailed, and the decision irreversible.

4. As a city councillor, I will do everything in my power to explore how the City can maintain ownership and control of the electrical generating assets that serve the Citizens of Edmonton.

Yes

1. I believe the decision to sell off Edmonton's electrical generating assets should not have been made in secret without public consultations.

Yes

I believe any decisions made by city council of this caliber should involve the citizens of Edmonton and no decision should ever be kept secret from the public.

2. As a representative of the Citizens of Edmonton who are the sole shareholder of EPCOR, I will not support the sell off of any other assets (electrical transmission, water, waste water) that serve the citizens of Edmonton, without full public consultations

Yes

As a city councilor it is my duty and obligation to listen to my constituents. I believe the public should have full and complete input into such decisions.

3. I believe the next City Council should have an independent investigation of the decisions surrounding the sell off of our electrical generating assets, as provided for in the Unanimous Shareholders Agreement with EPCOR

Yes

I believe city council should be held accountable for the impact that their decisions make, especially those decisions that are made without public consultations.

4. As a city councillor, I will do everything in my power to explore how the City can maintain ownership and control of the electrical generating assets that serve the Citizens of Edmonton.

Yes

as well as other assets

1. I believe the decision to sell off Edmonton's electrical generating assets should not have been made in secret without public consultations.

Yes

With the citizens of Edmonton being the ultimate owners of Epcor, it was irresponsible for our council to sit behind closed doors and make one of the biggest financial decisions in our history. This at the least should have been done with public consultations.

2. As a representative of the Citizens of Edmonton who are the sole shareholder of EPCOR, I will not support the sell off of any other assets (electrical transmission, water, waste water) that serve the citizens of Edmonton, without full public consultations

Yes

Public consultations should be required to make such decisions on behalf of Edmontonians. While it is nice that such a small group of individuals are willing to make such enormous decisions for the City of Edmonton, public consultations should be encouraged.

3. I believe the next City Council should have an independent investigation of the decisions surrounding the sell off of our electrical generating assets, as provided for in the Unanimous Shareholders Agreement with EPCOR

No

I am not sure that funding an independent investigation will result in any change. However, I do believe that we need to hold City Council accountable for their decisions, and avoid this happening in the future.

4. As a city councillor, I will do everything in my power to explore how the City can maintain ownership and control of the electrical generating assets that serve the Citizens of Edmonton.

Yes

I believe it is the duty of a councillor to explore avenues, involve the public, and initiate conversation on how to best serve the citizens of Edmonton.
