1. I believe the decision to sell off Edmonton's electrical generating assets should not have been made in secret without public consultations.

Yes

Every issue should be brought to the publics attention via the City of Edmonton website

2. As a representative of the Citizens of Edmonton who are the sole shareholder of EPCOR, I will not support the sell off of any other assets (electrical transmission, water, waste water) that serve the citizens of Edmonton, without full public consultations

Yes

If sold off, the citizens should be informed about what the decision will mean.

3. I believe the next City Council should have an independent investigation of the decisions surrounding the sell off of our electrical generating assets, as provided for in the Unanimous Shareholders Agreement with EPCOR

Yes

Epcor is not entirely run by the city. The city just owns a major stake in it. However if the citizens of Edmonton demand an investigation then the City Council will abide and do so.

4. As a city councillor, I will do everything in my power to explore how the City can maintain ownership and control of the electrical generating assets that serve the Citizens of Edmonton.

Yes

If ownership of epcor will mean more money for the City of Edmonton, then yes
